FIVE RULES OF LEGO HOCKEY

- 1 A match lasts five minutes. The clock never stops, even when the puck flies across the room and lands in your dog's dinner bowl. So find it fast, and keep firing at the fivehole.
- 2 Any shot that bounces back out of the net counts for zilch. Zero. A big fat goose egg. For a goal to count, the puck must remain inside the net.
- 3 Freezing the puck is not allowed. A player must pass or shoot within five seconds of receiving the puck. Or go home.
- 4 A face-off occurs after each goal, or any time the puck flies out of the rink. All face-offs take place at center ice.
- 5 The most important rule of all...Have fun!

PLAY LEGO® NHL® CHAMPIONSHIP CHALLENGE!

NEW! HANDS-ON HOCKEY FROM LEGO SPORTS!

LEGO HOCKEY GAME TIPS

SUPER COOL SCORING MOVES!

Pick and Shovel

For this play, use your center to set a pick on the opposing center and force him away from center ice. This will open up a lane for your defender to deliver a quick shovel pass to your forward, who can then flick the puck into the net.

Ricochet Rocket

Position your forward inside the face-off circle. Move your center toward your opponent's goal to cut off the defense. A pinpoint pass from your defender into right corner of the rink will ricochet right onto the waiting blade of your forward. He shoots, he scores!

LEGO Knights' Kingdom

MEET THE DESIGNERS!

Cecilia Weckstrom and Christian Forbes-Bell have been working on the new LEGO Knights' Kingdom line of action figures and playsets. Cecilia created the 8778 Border Ambush, and Christian designed the 8779 Grand Tournament. (You may recognize them as the models used to make our Power Knights!)

What's your favorite part of Knights' Kingdom?

Christian: The style and posability of the large action figures.

Cecilia: We've put cool functions and play features into every model, so nothing is static or dull. Everything has plenty of action and fun!

Do you have a favorite model?

Cecilia: I can't pick just one. I love how the Castle of Morcia changes from good to bad, the Grand Tournament's joust launchers, chucking the boulder in the Border Ambush, and of course having a good sword fight with the big knights!

Christian: The Grand Tournament, because I designed it exactly how I wanted it!

What do you like most about the model you designed?

Cecilia: I love all the different play features: firing the boulder, crossing the bridge, the trap door that you have to avoid or try to push the Shadow Knight into. It's not a huge model, but there's plenty of play packed into it!

Christian: I like the fact that it's just as much fun to play with by yourself as it is with two people!

(Psst! Can you share any secrets about your model?)

Christian: The colored bricks in front of the King's throne swivel to keep score of the jousts between Vladek and Jayko.

Build Power Knight Vladek using pieces from 8786 Vladek and 8789 Grand Tournament!

Build Power Knight Santis using pieces from 8785 Santis and 8778 Border Ambush!
